Willing to relocate to: Colorado Springs, CO

Authorized to work in the US for any employer

Work Experience

Site Supervisor/carpenter

Lost creek Construction - Colorado Springs, CO

July 2022 to December 2023

My position at lost creek co was warranty work for past clients finishing up client requests. Frame to finish tasks were completed to set subcontractors up for their next steps. Frequently I rented excavators, skid steers and power tools for larger tasks.

Owner/Operator

TF Custom Carpentry LLC - Littleton Common, MA

April 2021 to April 2023

I first started TFCC working at clients houses on weekends only. My clientele grew very quickly without much advertisement. We offered a lot of different jobs such as deck renovations, bathroom renovations, historical repairs, cabinet making and install, door and window replacement, and painting. I ran the company being the main lead carpenter soon switching over to part time field work part time office.

Apprentice Carpenter

Feinmann, Inc. - Lexington, MA

January 2020 to January 2022

My starting role at feinmann was to help with labor to speed up production. I quickly acquired new skills like installing cedar clapboard, cedar shakes and finishing exteriors after window installations were complete. I am independent in interior trim using poplar and clear pine. Crown, baseboard, base cap, casings, and interior doors were practiced almost daily. Structural work using steel, LVL's and concrete pads were common in these remodeling projects.

Apprentice Carpenter

Perron builders

April 2019 to June 2019

I went to the North Bennet school for the carpentry program, and had worked with a smaller subcontractor while in school and a little while after. After that I did some side jobs like replacing rotten exterior trim, and making custom mailboxes.

Skilled Laborer (part time in school)

Hyde construction - Newton, MA

June 2016 to June 2018

I worked at Hyde construction as a skilled laborer. Most of it was commercial, small tasks like demo, cleanup, shelf installation and door installs. I began using power equipment, practicing site prep and demo frequently.

Education

High school or equivalent in Carpentry

North Bennet Street School - Boston, MA

June 2019 to September 2019
