To Whom It May Concern,

It is with much interest and excitement that I apply to the position of Press Brake Operator. I have over 20 years of experience in various facets of press brake operations from sheet metal to heavy steel. I have set up, programmed and operated mechanical, hydraulic and CNC presses from 50 tons to 750 tons. I also have experience with long as well as short-running jobs. I'm very good at figuring out layouts, processes and sequences. I feel that I would be a great candidate based on those qualities. I believe my experience would allow me to be helpful to the company and would be an asset as well. I am also willing to relocate based on financial compensation.

Please contact me with any questions or concerns.

Thank you.

Best regards,

Ted H Mickel
