### Underground Utilities Operator

**I have 32 years' experience installing underground utilities, natural gas pipe, electrical both primary and secondary to include setting both transformers, secondary peds, and lcb's, copper and fiber, cabinets, hand holes and backbone infrastructure, and drops.**

**I have been operating Vermeer drills, Excavators and Backhoes for my entire career, I'm very comfortable digging around existing utilities and in very confined areas.**

**Familiar with all locate laws, competent person trained for shoring, first aid, and I have a clean class A CDL**

**I believe my experience would make me a great fit for your position.**

Sincerely,

Tom Falcon
