press brake\fabricator\engineer

Authorized to work in the US for any employer

Work Experience

Design Engineer

Ntense by design - Apple Valley, MN

January 2013 to Present

I am currently designing, engineering, programming and maintaining all of my own equipment as well as rapid prototypes on my

Cnc 3d printers, cnc routers and cnc vinyl decal plotter also manufacturing metal parts and signage

Cad/cam software used daily. 3d solid works, fusion 360, flexi sign pro

Brake operator

Integrated Manufacturing solutions - Shakopee, MN

January 2006 to January 2010

daily tasks were to set up and run a Cincinnati pro form 90 ton as well as maintain, clean and calibrate the 6 axis brake

Daily inspection of my equipment the machine and tools as well as all of my measuring equipment

Coordinated with shipping for jobs that were hot and or required special plan of action

we worked as a team of 3 brake operators to maintain a higher standard for our on time delivery this was a very fast paced shop with minimal lead times

Press Brake Operator/QA/turret operator

Data metal craft - Chaska, MN

January 2000 to January 2006

I was the floater at data metal. 6+ years quality assurance, doing first articles, in process inspection for 15-20 employees I would run the turret and press brake in between checking parts while learning 3d solid works from the head engineer and prior to that I was running the turret, press brake, spot welder, punch presses, assembly, milling and material handling

Education

None in General

Roosevelt High School - Minneapolis, MN

September 1990 to May 1992

None

Skills

- Cnc (10+ years)
- 3d solidworks (10+ years)
- Cad/cam (2 years)
- Amada turret (2 years)
- Press Brake (10+ years)
- Sheet Metal (10+ years)
- Fabrication (10+ years)
- Shear (1 year)

Additional Information

- Engineering (3d solid works)
- Quality assurance
- Turret (amada) setup
- Press brake (Cincinnati and amada) setup
- Manual stripit setup
- Spot welding operator
- cnc Milling/routing setup
- Hardware setup
- Assembly setup
- Drill\tap\csk setup
- Shake out
- Metal finishing
- Straight lining setup
