Objective

To utilize my technical skills and provide a professional service to customers by applying and honing my knowledge and working in a challenging and motivating working environment.

Experience

- **A Fuller Fence** 2011 - Present
Lead fence technician
Removal and cleanup of existing fence. Accounting for tools and materials for jobs and following strict directions to lead each project to success. Contact Jesse Fuller 970) 980-7693.
- **Bimbo bakeries USA 1800) 984-0989** September 2019 - August 2020
Machine operator
Bread was at a height in demand it had never been before at the time, so it was a serious effort that we all put forth to meet the need. Long hours, surprise calls to fill in for shifts, aging machines at the breaking point. It felt like a great thing to be a part of.
- **King Soopers bakery plant** September 2018 - September 2019
Machine operator
Great place to work. Really had fun as I was learning how mix and bake but moved on to running machines, and being accountable for production and time. I stayed in the field cause I enjoyed the job and what it meant.
- **Village Inn 1800) 800-3644** May 2013 - August 2018
Server
I became customer oriented over the time I spent serving our guests and it engrained a diligence that I still uphold. The best thing about the hospitality business is that feeling when you know that later in the day, when that person reflects on the experience they had, they will remember you.
- **Llano logistics 806) 472-5900** August 2009 - November 2011
Battery technician
Ensuring our batteries put out accurate voltage by adjusting specific gravity levels, ordering new charger components, and outsourcing if a rebuild was in case. Warehouse upkeep and maintenance with basic forklift and pallet jack repair.

Education

- **Lubbock Cooper ISD** 2003
High school diploma
