## INTRODUCTION:

### **Door to Door Organics - Rock Creek Cr. Lafayette, CO. 80026**

**January 2015 – July 2015 Warehouse Packer:** Preparing orders of Organic Produce and Organic Food for shipping delivery. Focused on recycling cardboard and other recycling materials, loading trucks with completed orders, supplying stock to production line - **Line Supervisor: Shannon 303-297-3636**

### **Volt Management for Emerson Process Management – 7070 Winchester Cr. Boulder, CO.**

**March 1, 2011 – May 2014 Shipping Associate** - Developed shipping protocol for 405, 1195, 1595, and other O-Plate meters; developed a definitive knowledge of domestic and international shipping destinations.

## GOALS AND OBJECTIVES:

- **Objective:** Continued development of Production and Leadership systems. Committed to Emerson as my chosen career improvement opportunity.
- **Primary Goal:** Secure Assembler I position with Emerson.
- **Interim Goal:** Develop critical eye for quality control standards, secure Quality Inspector position.
- **Long Term Goal:** Develop Leadership and Production Systems capacity to secure supervisory role.

## EXPERIENCE:

### **Trained & certified 405 & 1195 shot blast.**

**Shot Blast Associate – Trained and participated in Emerson 2011 Inventory Control.** Developed skills and knowledge of Order Selection and Kanban Board, kit assembly for welders, beveled meter necks for welders, developed expertise of total process flow, developed independent work procedures. Committed to flex in 1195 kitting, Hydro-static testing, kitting orders and assistance for welders, **training and assistance for Assembly I position to aid production process.**

### **Trained and Certified Hydro-static Testing.**

Established critical eye, (attention to detail) working within quality standards of Quality Control for 405, 1195, 1595. I've developed a strong focus to maintain procedural sequence; Enjoy troubleshooting challenges and securing direct response while maintaining Safety & Quality Standards; Work well with others and developed strong communications in teamwork solutions; Understand safety as a top priority with production quality as equally important.

Motivated to keep work area clean and organized as essential to maintain procedural standards. I am highly regimented and thorough. I have developed extensive knowledge of Red Light form documentation, First Pass Yield documentation, and OBQ Oversight, specific cleaning and maintenance of Hydro fixture plates to ensure maximized quality

specifications.

**Devoted to maturity in work ethics; Committed to do whatever it takes to “clear my rack” at the end of each day; Motivated to maintain loyalty to Emerson work structure.**  
**Cory Hadl 720-622-2714**
