Work Experience

Forklift Operator/Material Handler

Elite (Logistics/Fulfillment & Distribution Company)-El Segundo, CA

February 2023 to April 2025

- Operates forklifts to load, unload, stage and transport materials within the facility, pallet jack operating
- Utilize computer skills to enter data and track inventory
- Inspect and maintain forklifts and other equipment to ensure proper functionality, keeping a clean area
- Collaborate with team members to fulfill production and shipping requirements, labeling, inspecting/quality control
- Adhere to quality control standards to maintain product integrity
- Material handling, other duties as assigned

Heavy Equipment Operator

Martin Marietta Materials-Matthews, NC

May 2012 to December 2022

- Operates quarry mobile equipment, including, but not limited to, backhoe, to lift and transfer bulk materials, such as shot rock, sand, clay, or other bulk material, to trucks, hoppers, chutes or other areas of quarry. Drives haul trucks to transport materials throughout the quarry.
- Maintain quarry floor and walls in clean and safe condition. Uses backhoe for scaling quarry walls following blasts. Clears snow or debris from quarry areas as needed. Advises supervisor of loose ground or other hazardous conditions in the work area.
- Fills in potholes and generally maintains condition of roads throughout quarry.
- Performs routine inspections and maintenance on mobile equipment, including lubricating, fueling, and cleaning. Completes equipment safety checklist prior to using any mobile equipment.
- Assists in belt cleaning or repair as needed.
- Assists with the planning, assembly and detonation of industrial explosives for blasting in the quarry. Use seismograph to take readings during blasts. Also, determine the amount and type of explosives to be used, and location of charges, use jackhammer or electric drill to bore holes for charges; assemble primer and main charge in hole.
- Occasionally functions as Crusher Operator to cover periods of vacation or absence.
- Follows plant and MSHA Safety Policies, including the proper use of Personal Protective Equipment. Maintain an awareness of plant environmental standards. Takes corrective action to address minor problems or reports compliance issues to appropriate supervisor for resolution.
- Task Trainer
