## **Objectives**

To join a progressive world class company as a motivated and flexible team member with a reputation for initiative and commitment to personal and professional growth; to be part of an organization that offers opportunities to grow within the company for stand out employees. Most importantly, to begin a promising career with a company that recognizes potential in its employees and builds upon that potential to the benefit of both the company and the employee.

## **EDUCATION**

North Eastern Junior College

May 2012- Completed Associate of G.S. Degree, graduating with a 3.8 G.P.A.  
(Transcripts available upon request)

Pueblo Community College

2008 - 2010 Courses completed include Gas Metal Arc Welding 1 & 2, Shielded Metal Arc Welding 1 & 2, Intro to Gas Tungsten Arc Welding, and Intro to Blueprint Reading for welders and Fitters. (Transcripts available upon request)

## **EXPERIENCE**

BVM CORPORATION - 430 south Navajo street Denver Co.

Welder- April 2012 - May 2014

As a welder in the production department. I was required to be certified in Dual shield FCAW on  $\frac{3}{4}$  inch plate and 2 inch round bar both in the 1G position. I was required to perform repairs on castings and component parts of oil rig equipment. I fabricated component parts for products using all shop equipment including Oxy-Acetylene Torches, Plasma Cutters, Band Saws and Iron Workers, press brake etc.

As a fitter/welder in the fabrication department I executed fit up and weld of pipe lay down machines, and various component parts from complex prints.

**RK Mechanical** (heavy structural steel dept.) 8221 E 96<sup>th</sup> Ave. Henderson, Co.

Fitter/welder May2014- Present

Executed fit up, and weld of all types of structural beams columns and skids among various other heavy structural, and miscellaneous steel projects. I worked mainly as a fitter at RK, with extensive experience building skids, and I am capable of working from complex prints with small tolerances on a wide variety of steel projects. I Was required to be certified in Dual shield on 3/8 plate in the 3G position. As well as hardwire on 2 inch sched. 40 in the 6G position.

### **Skill set**

- I'm capable of fitting up most any structural beam, column, skid, or miscellaneous project using very detailed drawings and tolerances of no more than 1/16<sup>th</sup> of an inch.
- Have held different certifications depending on employer
- I can operate any shop equipment to include iron worker, basic press brake operation, Air Arc, Torches, Plasma Cutters, Chop Saws and other tools of the trade.
- Experience in MIG, some TIG and SMAW.
- Certified forklift operator.
- Hard working, ambitious, dependable and detail oriented employee.

### **Personal**

I'm a hardworking, dependable family man. I'm the father of two boys, and I value education and believe that hard work and loyalty can lead you to success.
