Work Experience

Groundsman/ Frontend Loader Operator

Diamond T Services - Golden, CO

October 2018 to Present

Groundsman and Frontend Loader Operator. Move and push dirt with Frontend Loader. Load dump trucks with loader. 2 way radio communication with other crew members. Direct dump trucks on and off job site in a safe and timely manner.

Shipping Specialist

Shippers' Supply Custom Pack - Loveland, CO

November 2007 to October 2018

Bresco Inc, Shippers' Shipping Specialist

Supply Possess 10 plus years combined knowledge extensively in the shipping and supply business.

This position exemplifies my attention to detail, organizational skills, and ability to work quickly, 2007-11 - 2018-10 accurately and independently. The daily tasks include measuring, cutting and building custom

shipping crates. Load and unload various types of materials and crates. The customer base primarily consists of artists as well as larger companies like Woodward Governor and General Electric. The vast majority of crates built are trusted to carry inventory that can range from sculptural pieces worth hundreds to thousands of dollars. The commercial contracts can be liable for millions of dollars' worth of inventory such as computer systems, water turbine systems and some nuclear components. Inventory management included keeping track of all heat treated lumber that is received and shipped out of the business per regulatory standards and for international shipping. All heat treated lumber is audited by the federal government.

Inventory of monthly lumber loads worth about \$50,000- \$60,000 depending on lumber cost and inflations. Some customer service is also a part of current job. Being a committed team player and possessing the ability to work under stress and maintain efficiency in maintaining critical deadlines is a must in this position. Filled in as assistant shop manager and acting shop manager when main supervisor is off site.

Wildland Firefighter

Larimer County Sheriffs

May 2002 to June 2012

Department On call wildland fire fighter (retired). Traveled along Colorado Front Range and abroad to various wildland fires. Worked on a crew of 15 or more with safety of personnel as #1 priority. It 2002-05 - 2012-06 was the most exciting, strenuous job I've encountered in my work experience and was honored

to be a part of it. This position required tremendous flexibility and commitment.

Warehouse Manager

SpiderTrax Off-road - Longmont, CO
February 2004 to July 2005

orders. Made sure all products were shipped out on time and in a timely manner. Kept track of all open PO's and called different companies to check on open PO's. Received and inspected all product shipments coming in from various shipping companies. Arranged shipping of larger orders, filling out bill of lading paperwork, customs paperwork for international shipping.

Education

GED

AIMs Community College - Greeley, CO
January 2017 to January 2017

Skills

Fork Lift Operator Safety

Operating a 5,000 lb load capacity forklift for Very safety conscious with no on the job the past 10 years with some 7,500 lb load injures. Safety is one of my top things to look capacity forklift all for my current employer. out for and worry about. Always looking out Also ran a Gradall telescoping forklift and for unsafe things or issues at my current job smaller lifts since I was 16 years old. Never and I bring them up immediately to the had an accident while running any of the supervisor. Been through an OSHA based forklifts I've operated. safety seminar put on by Pinnacle Assurance called " Boots on the Ground" and learned many aspects of being age while in the job. As a wildland firefighter, safety of yourself and the other crew members is the #1 priority while fighting fire or en route to a fire call. I always have my head on a swivel looking out for unsafe situations for myself and my co workers.

Reliability Dependable

Always on time or earlier. Will work any Rarely call in sick and am very dependable. overtime needed or asked to. Need someone Can and will get the job done and can be to volunteer, I am there. Anything to help the depended upon to do so.

company out. Need me to come in early to work to start on a project or finish a project, can count on me.

Welding Clean Driving Record

Some wire feed welding in the past. Nothing Very clean driving record. Can drive too special. Just little home projects on an automatics and manual vehicles. No CDL, yet. old Suzuki Samurai rock crawler I had owned. No tickets or accidents in the past 12 years or so. Love to drive.

iPad Usage Heavy Equipment 1

Very proficient in using Apple iPad/ iPhone Heavy Equipment Safety, Grades, Site Layout, apps and programs. Have owned and used Loaders, Backhoes, Introduction to iPad/iPhone for many years. Very easy for me Earthmoving, Math Conversions, Skid Steers, to learn new programs and apps on the iOS Rough-Terrain Forklifts, Off-road Dump system and iCloud. Trucks. Pre-work inspections of all equipment, fueling and post-operating inspections of all equipment.
