Professional Summary

Dynamic welder with 2+ years of experience in MIG welding and fabrication. Skilled in using various welding techniques, interpreting blueprints, and prioritizing safety on construction sites. Experienced in assembling, positioning, and securing metal components with precision while adhering to strict work standards.

Work Experience

Heavy Haul Truck Driver

Colorado sand | Keenesburg, CO

June 2025 to April 2026

- Operated 42-ton haul truck to transport and unload sand, mud, and waste efficiently during night shifts
- Managed high volume of loads per shift, demonstrating stamina and reliability
- Maintained safety standards during long hours of operation

Welder/Fabricator

Knobelsdorff | Stratford, TX

January 2025 to July 2025

- Operated welding equipment to fabricate and assemble tower structures and corn silos, ensuring structural integrity and alignment
- Welded electrical grounding and support frames, demonstrating versatility with limited equipment (80amp)
- Climbed and welded on I beams over 100ft high, applying safety protocols and precision
- Delivered durable welds under challenging conditions, adapting welding techniques to meet project requirements

General Laborer

Bonham Construction | Pueblo, CO

March 2023 to December 2023

- Assisted in leveling and compacting dirt using jackhammers and other tools to prepare construction sites
- Installed windows, doors, and lighting fixtures, contributing to building completion
- Supported pipe connection work for water drainage projects, demonstrating teamwork and adaptability

Welder

Wanzek Heavy Industrial Constructors | Pueblo, CO

September 2022 to December 2022

- Welded large I beams (45ft-65ft) and installed them securely in foundations, ensuring compliance with structural specifications
- Fabricated and welded support structures for heavy cranes, applying precise welding techniques and safety standards
- Collaborated with team members to complete heavy industrial construction projects efficiently

Welder Helper
Wanzek Heavy Industrial Constructors | Pueblo, CO
September 2021 to November 2022

- Assisted welders by preparing materials and fitting components for various welding projects
- Supported welding operations by ensuring proper alignment and readiness of parts
- Maintained organized workspaces and adhered to safety protocols during all tasks

Education

Welding (Trade school)
Central Texas College
January 2023 to December 2024

High school diploma
Panhandle High School | Panhandle, TX

Upper secondary education

Skills

MIG welding Gas metal arc welding Flux-cored welding Shielded metal arc welding Welding
Fabrication Following blueprint specifications Hand tools Power tools Personal protective
equipment (PPE) use Construction workplace safety regulations Attention to detail Heavy lifting
Climbing Safety equipment operation
