COMMUNICATION

Working at Hardees has helped me gain communication skills working in a team atmosphere. I have learned conflict resolution skills. I have encountered disgruntled customers that I feel I did a good job at deescalating the situation while staying professional and calm. I also have gained communication skill working drive through with the headset. I have learned listening skills while task switching and taking orders.

LEADERSHIP

I am occasionally the "closer" at Hardees which is a big responsibility. I must make sure that all tasks are completed and the restaurant is ready for morning shift. There are usually only one closer on week days. I also train others in job duties as I am skilled at pre-closing. Many the other staff are relatively new. I have been trained in everything that a crew member can be trained in.
