I have lived in Colorado for around five years. For a little over two of these years I was employed with Seven Eleven (7-11). I am currently employed at the Walmart Distribution center in Loveland for a year. I handle my job very seriously putting my work ethic at the front of every task I am given. Physically demanding jobs are not an issue for me, I have a good range of skills I have acquired over time from odd jobs and I can handle people and customers in a very professional and courteous manner.
