Authorized to work in the US for any employer

Work Experience

Associate Manufacturing Technician

McKesson - Longmont, CO

June 2023 to Present

I am a lead for assembling unilable machines from frame to finish. I make sure my team is ready for the day and understand what their goals are. I also help with any questions or concerns that may come up to the best of my ability.

Laborer/Operator

Dunrite Excavation Inc. - Berthoud, CO

March 2023 to Present

Responsibility includes ground work, grade checks, machine operation as needed.

Grounds Crew

Economy tree service - Greeley, CO

March 2013 to Present

I help load tree limbs and branches into a dump-trailer and cut it up with a chain saw. I also buck tree trunks into manageable pieces. I would perform maintenance of the work vehicles as well as our saws.

Crating department / forklift operator

Advanced manufacturing technology - Loveland, CO

January 2021 to November 2022

My responsibility was to supervise in the crating department. I was to make crates and load them into semi trailers to be shipped. I was also responsible for any maintenance that was required in office or in the shop.

Commercial/Residential install/Retro fit - old to new.

Highland Heating & Air Conditioning Company - Mead, CO

January 2015 to August 2018

I was apart of a team that did commercial and residential HVAC installations. I do not have an EPA license. I also have experience with the service side, so, changing filters, cleaning A/C coils, changing A/C / Furnace units. I would also perform PM on roof top units, thermostats, light switches, electrical outlets when needed.

Education

GED

Thompson Valley High School - Loveland, CO

January 2010 to July 2014
