## WORK EXPERIENCE

### **machine operator**

Hayfield Windows and Door - Rochester, MN - June 2015 to August 2015

#### Responsibilities

Measured and cut out pieces of vinyl to make awnings for windows. All this cutting and measuring was done with an electronic saw. I get the order then I mostly dealt with the electronic saw's computer software for the saw's operation, and sometimes manually do the cutting and measuring myself depending on the order. After each order of a piece is measured and cut I would place each in a number grid system, where in the end they should all match. Then send it to the the next process. I also kept my work area very clean throughout the work day and end of shift.

#### Accomplishments

I really liked it when I filled in extra orders with flaws, so it would help the the workload and company stay within the customer's deadline.

#### Skills Used

I demonstrated dedication, ability to learn very fast, and worked well with others. I even showed that after I learned these skills, I adapted my own sense of way in this particular job skill and I would like to say, I pretty much mastered this skill.

### **State Outdoor General Laborer**

D.O.C MN - Minneapolis-Saint Paul, MN - November 2014 to June 2015

#### Responsibilities

Performed janitorial and general maintenance of buildings, felled and trimmed trees using chain saws and pole saws. We mowed and trimmed lawns using power mowers and weed eaters. We also did a lot of landscaping work such as creating landscape borders using landscaping stones, laid sod and mulch while maintaining landscaped areas. I like to include I also have experience working in and around golf courses.

#### Accomplishments

I help impact the environment by helping every week to pick garbage from a landfill. I had a chance to work in and around the MN State Zoo and that was a very good feeling knowing I helped those many important species of animals live comfortably in there domains.

#### Skills Used

I would definitely say my easy going personality and easy to get along with social skill, paid a big factor in my work performance. My hard work ethic skills had to be tuned in because most of the jobs were somewhat grueling and harsh on a steady daily basis of the week.

### **Assembly production line worker**

Express Employment Professionals - La Crosse, WI - May 2009 to June 2012

#### Responsibilities

I worked in various warehouses doing mainly assembling multiple products in a high production line environment. I also done picking and packaging orders so it can be ready to be shipped. Mainly I worked for Main Street Ingredients through Express handling a product called whey protein for health consumption.

**Cook/food preparer/dishwasher/inventory etc....**

Boothill Pub n Grill/ Jim Bob's Bar n Grill - La Crosse, WI - February 2007 to April 2009

My position and title of this job was line cook. I mainly prepared extra condiments and sides dishes that need to be made in advance in case of customer demand during lunch rush. This routine was also done after lunch rush with food pertaining to the evening dinner. I also learned and performed other job skills that revolved around food service, restaurant, and the entertainment business.

**EDUCATION**

**High School Diploma**

D.O.C Fairbault Education

**ADDITIONAL INFORMATION**

I have a number of years in both maintenance and assembly work. I believe that my work history along with my broad range of mechanical abilities would be a great addition to your company.
