Quality Control Inspector

Circle Graphics - Longmont, CO

March 2008 to September 2017

Discarded and rejected products, materials and equipment that did not meet specifications.

Monitored production operations for compliance with specifications and promptly reported defects.

Routinely checked measuring equipment to resolve testing problems.

Inspected outbound shipments and conducted random sampling to ensure product quality.

Recorded inspection and test data such as weights, temperatures, grades and quantities inspected and graded.

Determined adjustment and certification methods, formulas, and measuring instruments required based on blueprints.

Collected samples during production and tested randomly to determine in-process product quality.

Maintained a high standard of workmanship by using only approved data, materials, tools and test equipment.

Education
