EXPERIENCE

Sturgeon Electric, 12150 E. 112th Ave Henderson, CO —
Construction Wireman

June 2021 - PRESENT

As a CW1 at Sturgeon Electric, my role is to follow the ways of my journeyman. What that looks like is asking lots of questions to build an understanding for the job at hand; it is reading blueprints, bending and putting in conduit, pulling wire, labeling, phasing wire, etc. Mostly on the job I have been doing lighting control. Lighting control my objective is to install power relay packs into junction boxes, connect cat5 cables to those power relay packs, and then install the light fixture.

King Soopers, 9731 W 58th Ave, Arvada, CO 80002 —
Replenishment Associate

February 2021 - July 2021

The objective of a Replenishment Associate, is to replenish the isles, unloading the delivery truck, and being a helpful associate to customers.

Edelvace, *Construction Wireman*

September 2020 - January 2021

I began my electrical career first in residential, working with my father. My job was to follow and execute the instructions given to me. I had to dig trenches, drill holes into studs, pull wire, etc.

RRR Stone Tops, 975 E 58th Ave Unit G, Denver, CO 80216 —
Installer

May 2020 - August 2020

My job as an installer was to make sure that we had all the tools and material needed to install the granite counter tops. Another part of the job is being a team player meaning helping out carrying the granite countertop, placing it into its position then securing the granite countertop.

Optiv, 1144 15th St UNIT 2900, Denver, CO 80202 — *Intern*

June 2018 - August 2018

Interning at Optiv, my Objective was to refactor Suite Script 1.0 into Suite Script 2.0. I had to learn how to read Suite Script 1.0, and Suite Script 2.0 and be able to refactor many scripts into the newer language, in a short amount of time. It

SKILLS

- Arduino Programming
- Java Programming
- Android Programming
- Web development
- Lighting Control

was somewhat easy to learn how to read both Suite Script 1.0 and Suite Script 2.0 since I had already had programming experience.

EDUCATION

Arvada West High School, 11595 Allendale Dr, Arvada, CO 80004 — *diploma*

August 2015 - May 2019

Warren Tech Central, 13300 W 2nd Pl, Lakewood, CO 80228

August 2017 - May 2019

Studied Computer Science. I studied a variety of languages, but the one I studied the most was Java.

PROJECTS

Mushroom Automation System

Back when I was working at Kingsooper, I saw this movie called fantastic fungi, and I got super into mushrooms. Since I was busy working during the day, I would not be able to look after my mushroom garden. So I had decided I would build a system using an arduino, a small microwave transformer, relays, and many other components I had lying around to build the system. In the end, with the help of a pc fan, CO_2 sensor, and humidity and temperature sensor, I was able to grow Lion's Mane Mushrooms. I also made it programmable, so I can change the setting if I wanted to grow other mushrooms.
