

**William C. Webb**

(716) 440-1254

<bdf75@gmail.com>

101Frank Ave. Buffalo, NY 14210

OBJECTIVE: an industrial position that will utilize and expand upon past experience obtained through previous positions.

## EXPERIENCE

### Sefar

October 2008 – March 2009

#### **Operator Heat Slitter and Stamping Machine**

Worked on fabrics for various filters and belts in workshop and in clean room  
Using Caliper, Linear Measuring, rulers, both inside and outside forms of measuring

### Continental

May 2003 - October 2008

#### **Machine Systems Operator and Electronic Assembly**

Systems Operator and Quality Control tester Worked on Transmission Control Modules, Electronic Air Suspension, EBS, automotive sensors, on Production line and in Clean room. Soldering, crimping, mechanical and electronic control assemblies Caliper, Linear Measuring, rulers, using both inside and outside forms of measuring. Quality inspection and use of microscopes. Also use of torque wrenches, screwdrivers, hammers, etc. Worked with 5 s and Kahn-Bann and other Lean Manufacturing procedures, test run samples, etc

Turner Carroll High School **Religious Educator and Chaplain** October 2002 - May 2003

### Bird –TX/RX

April 2002 - September 2002

#### **Electronic Assembler and Metal Finisher**

Worked on Antennas, Boosters, Couplers, Amplifiers, etc. Soldering, crimping, mechanical and electronic control assemblies  
Caliper, Linear Measuring, rulers, using both inside and outside forms of measuring.  
Use of Microscopes, torque wrenches, screwdrivers, hammers, etc. Sawing, punching, drilling, tapping, bending and finishing light metal stock.

### Motorola Auto Sensors

March 2001 - March 2002

#### **Electronic Assembler**

Systems Operator, and Quality control tester; worked on Transmission Control Modules, Electronic Air Suspension Systems, EBS, automotive sensors. Soldering, crimping, mechanical and electronic control assemblies. Caliper, Linear Measuring, rulers, using both inside and outside forms of measuring. Use of Microscopes, torque wrenches, screwdrivers, hammers, etc.

### Allied Automotive Group

1998 - November 2001

#### **Chaplain Independent Contracted Counselor**

### Bird/TX/RX

September 1993 - April 1998

#### **Machinist**

Operated, maintained and tested metalworking machines.  
Caliper, Linear Measuring, rulers, using both inside and outside forms of measuring.  
Sawing, punching, drilling, tap-screwing, bending and finishing metal stock.

SKILLS (1) General mechanical aptitude (2) Apprenticed abilities in metal machining and electronic assembly  
(3) Experience as a production line systems operator and workshop assembly  
(4) Written and oral public communication abilities  
(5) Presentation, training and consultation skills (6) Research, planning, management and supervisory experience

EDUCATION Colgate/Bexley Hall/Crozier Master of Divinity  
Rochester, NY  
University of Rochester Bachelor for the Arts  
Rochester, NY  
Sherburne-Earlville High School Salutatorian Graduate  
Sherburne, NY

BACKGROUND While growing up I worked in dairy-farming and construction. When attending college and seminary I worked in the University of Rochester Faculty Club serving in various roles in fine-dining food preparation, food service, catering and restaurant management. In the summers I worked at a steel yard and on construction sites with a crew erecting steel. I have apprenticed as a grape grower and a wine maker. I've also apprenticed as a landscaper working on residential and commercial construction sites. All the while I had trained and was ordained, and serve as an Episcopal priest.
