- Superior logistics and supply chain management experience, distribution management, and quality assurance for domestic and international freight.
- Proficient in enterprise resource planning (ERP), warehouse and transportation management systems (WMS, TMS), SAP and ShopFloor.
- Advanced knowledge in reviewing shipping manifests and invoices to ensure full compliance of FMCSR, OSHA and DOT policies, rules and regulations.
- Extremely efficient in Microsoft Excel, Word, PowerPoint, Outlook, ARC View GIS, Salesforce, Nutshell, and expert knowledge of Windows and Mac OSX systems.
- Interpersonal skills, problem solving, goal oriented, and multi-tasking ability.

Professional Experience

Magna International (Piedmont, SC)

October 2017 – May 2019

My role as Logistics Coordinator is to ensure that the Magna-Drive Automotive focus on Customer, People, and Investor goals are balanced and met. Wore multiple hats.

- Managed inventory accuracy in our 1.3M sq. ft. plant, for the \$17-18 million in inventory of BMW SUV series X1, X2, X3, X5, X6, and X7 raw racks on hand are accurate.
- Project Manager for BMW's X1, X5, & X7 \$48 million launch contract in January 2018-December 2018.
- Each morning by 7:00AM was to effectively present information directly to the President, Director of Global Operations, and Board Members, plant General Manager, Assistant GM's, and Area Managers.
- The logistics coordinator reported directly to the Logistics Manager on any and all activities from supervisors, team leaders and personnel.
- Responsible for data analysis of customer requirements, production cycle time, packaging, storage space available, or other key data points to develop improvement which result in a cost savings, labor savings, or improved throughput of material.
- Developed standardized work instructions and other supporting documentation to ensure logistics personnel had no questions, and that processes are properly followed throughout the plant.
- Addressed internal supply problems head-on and developed creative solutions to prevent delays and missed targets.
- Focused on KPI monitoring and reporting, while delegating the priority of shipping needs to shift supervisors.
- Coordinated with production and material planners to assist in material flow throughout the plant to support customer needs and updated SAP and ShopFloor for production and pre-production activities.
- In constant communication with customers, trucking, and the outside dock personnel directly on any issues that come up throughout the shifts.

Joel Perkins Industries, 3M (Powdersville, SC)

March 2017 – September 2017

- Warehouse and Logistics Manager over 3M Film and Tape warehouses.
- Responsible for 3 warehouses of shipping and receiving, creating bill(s) of lading, routing, tracking and confirming freight is on time and damage free.

Will Hegwood

- Managing and cycle counting inventory on a daily basis to ensure inventory control meets 100% of 3M's standards.
- Updating our 3M-inventory database throughout the day to show where product is located, should any discrepancies arise.

Ceres Transportation Group (Greer, SC) December 2016

September 2015 -

- Operations Supervisor over multiple multi-million dollar accounts.
- Supervised and maintained all domestic and international freight shipments, dock to dock. Which included, but not limited too; quoting rates, created bill(s) of lading, routing, tracking, and ensuring freight delivered on time and damage free.
- Maintained constant line of communication with driver and customer, to give real-time status updates, quickly solving any issues that may happen.
- 99.2% dock to dock shipment success rate.

Real Estate (South Carolina)

January 2010 - April 2015

- Developed a cutting edge real estate development software while at College of Charleston, information was captured in multiple categories of lead generation; IP addresses, e-mail, phone numbers, contacts and more.
- Land Specialist and licensed South Carolina Real Estate Agent specializing in the research and analysis for large tracts of land.
- Built Geographic Information Systems (GIS) databases that visualized data and revealed patterns and trends of the Upstate market.
- Created marketing pamphlets of newly listed property and sent to prospective clients.
- Integrated and built Salesforce and Nutshell databases for current and new listings.

Education

The College of Charleston - BS in Business Administration
