Summary

Accomplished welder with over 7 years of experience in MIG, TIG, and stick welding. Proficient in blueprint reading, metal fabrication, and operating welding equipment while adhering to safety standards. Experienced in structural and fabrication projects, ensuring precise measurements and quality control in dynamic work environments.

Authorized to work in the US for any employer

Work experience

welder/fitter

A.k. welding • Trinidad, CO

September 2025 to February 2026

- Performed MIG, TIG, and stick welding techniques to join metal components with precision and adherence to welding standards
- Interpreted blueprints, drawings, and specifications to determine welding requirements and ensure accurate fabrication
- Operated and maintained welding equipment including welders, torches, grinders, and plasma cutters following safety protocols
- Ensured strict compliance with safety measures and proper use of personal protective equipment during all welding operations
- Collaborated with team members to plan and execute complex welding projects within specified deadlines
- Fabricated metal structures using precise measurements and worked with metals such as steel, aluminum, stainless steel, and cast iron

Structural welder

Nana construction • Big Lake, AK

January 2018 to September 2025

- Fabricated and welded all metal components and conjoint pins for skids built for Conoco, BP, and Shell, ensuring structural integrity
 - Interpreted blueprints and construction plans to accurately fabricate metal parts and assemblies
 - Operated overhead 10-ton crane, scissor lifts, and forklift to safely handle heavy materials and components
 - Collaborated with team members to meet project deadlines and maintain quality standards
 - Maintained a safe work environment by following safety regulations and proper equipment handling procedures
-
