

# WILLIAM KEICHLER

## WORK EXPERIENCE

---

**P** 720-490-2284

**E** b.keichler@yahoo.com

**A** Denver, CO 80203

### OBJECTIVE

---

My desire is to find employment with a progressive company interested in designing and manufacturing products that have a positive environmental impact.

I would like to work from home until there is a vaccine and/or therapeutics for covid-19.

### EXPERIENCE

---

After graduating from high school, I was an Avionics Technician in the Marine Corps. This included component level repair of aircraft electronics equipment. I am a Vietnam veteran. I was honorably discharged as a sergeant in 1974.

#### 1975

I attended the University of New Mexico for approximately a year and a half next.

#### 1976-1979

My next work experience was at United Nuclear, a uranium mill near Church Rock, New Mexico. I was the supervisor for the maintenance of instrumentation and controls there, I was there from 1976 to 1979 when the mill shut down. Unfortunately, there was an environmental disaster there. I had nothing to do with it.

#### 1979-1984

My next work experience was an instrumentation and controls technician at Anamax Mining Company. Anamax was a copper mining company near Green Valley, AZ. I was at Anamax from 1979 until 1984 when the copper mill shut down.

#### 1984-1991

My next experience was at Southwest Controls and Aldrich Controls in Phoenix and Tucson. I did instrumentation and controls outside sales from 1984 until 1991.

#### 1991-2001

From 1991 until 2001 I worked as a lead maintenance technician at Nelco Technology in Tempe, AZ until the plant shut down. Nelco manufactured printed circuit boards.

#### 2001-2006

From 2001 to 2006 I worked at the Chieftain Inn in Chambers, AZ.

### EDUCATION

University of New Mexico

Albuquerque

New Mexico

I attended UNM in the mid 70's.

---

**2006-2013**

From 2006 to 2013 I worked for Herbert Gas Services in West Virginia and Kentucky until they shut down. I did installation, maintenance and operations work on natural gas processing equipment.

**2013-2015**

From 2013 to 2015 I worked at the Ritz Carlton in Denver.

**2016-2020**

From 2016 to 2020 I worked at Accudyne Corporation in Englewood, CO. At Accudyne I operated CNC Lathes and Mills.

I have many years of experience in electrical and mechanical industrial maintenance as well as industrial instrumentation. This experience includes my personally designing new products now being used in industry.

**COMMUNICATION**

---

In the right environment I am an effective communicator. I prefer to work in a small team where all involved are striving for a common goal.

**LEADERSHIP**

---

I am capable of leadership and prefer it to be in the context of a small team. My evaluation of the contributions of others as well as my own are honest and accurate. Team first for all!
