

William Nimmo

Firestone, CO

willnimmo7_4no@indeedemail.com

(720) 519-9687

Utilize my skills to assist in anything in need of completion, learn new skills to expand my knowledge, to become more valuable and work effectively in the workplace. I am willing and able to learn new things in a new environment, as well as work with other employees to increase my ability in the working environment, to be able to meet requirements needed to fulfill a position.

- Ran and maintained both manual and CNC mills and lathes.
- Very familiar with a shop environment, safety precautions whilst in a shop, and

especially around machines.

- Experience in working with both Mastercam, and Solidworks, to aid in designing parts.

- Experienced with calipers, bandsaws, drill presses, and other commonly used shop tools.

- I've learned how to problem solve, improvise, and work around issues that may appear, to continue working.

- Worked with many types of vehicles over the years, and have learned many things.

I am very confident I will be valuable asset, if not a very dependable employee, as part of this workforce.

Authorized to work in the US for any employer
