nov2017-current

- Stolle Machinery, Started November 2017, working in Rutherford printer mechanical assembly, blueprint reading, mechanical assembly and sub assembly.
 - In Feb of 2018 I was transferred to a machinist 2 position at stolle working on a MVR-35 boring mill, where my daily activities at work range from fixturing and part setup, basic math skills, offset and program alterations, proofing programs on machine. Also holding tolerances of .0005 over 9 separate bore positions. Im also familiar with 5th axis milling drilling boring and tapping. Ive held a 125 finish on the current family of parts I work on. Ive used manual mills and lathes, I could use some training on cnc lathe. Producing Quality parts safely in a clean environment expeditiously.

Jan 2017-july2017

- Design Mechanical, HVAC installation and blueprint reading.

jan2016-june2016

- Global Manufacturing, CNC machining, producing 2,000 parts weekly. Making offset adjustments to X and Y axis, processing parts from machining through finishing process. Proficient in quality inspections, proficiency with micrometer, caliper, gauge pin inspection, and blueprint reading.

Skills

- 7.5 years of production and technical repair and maintenance work.
- In the majority of my experience Safety has always been the number one focus, then Quality of the product.

➤ Completed corresponding MillerCoors safety and training courses required of my employment through Aerotek.

➤ Self motivated and capable of completing tasks in a team or on my own with excellence.

● Inspection: gage pins, vernier, and micrometers, dies, taps, .000-.0000

● Metals worked with: brass, aluminum, steel, stainless steel, plastic.

➤ MillerCoors Forklift license

➤ Concrete/ tile/ granite fabrication.

➤ Room layout

➤ Lock out/ Tag out/ Try out

➤ Pneumatics repair and testing

➤ Sheet metal working

➤ Tool and Die certification (machining)

➤ 3M maintenance and repair

➤ Tool competency

➤ Storage and supply room operations

Experience:

Stolle Machinery:

Started November 2017- current

➤ Assembly of Rutherford printers

➤ Subassemblies

➤ Inspecting and measuring parts to match specification on blueprint.

➤ Stolle Crane certified

DMI HVAC Apprentice:

Installation and repair of HVAC equipment on job sites

July 2017- Oct 2017

Transportation Management Services Incorporated:

June 2016- Jan 2017

Forklift operations, lifting 6,000-30,000 lbs Aluminum Coil and cans, unloading railcars

Global mfg:

Feb 2017-June 2017

Running between 3-6 Cnc mills and or lathe, producing 2,000 parts a week. I inspected made and

finished my own parts. Making pulleys, bolts, and clips that hold glass. Metals I worked: brass, stainless steel, steel and aluminum, as well as plastic.

Accurate Tile inc October 2015- March 2016

Laborer/ helper for tile granite and concrete for contractors on construction sites

Aerotek staffing Rocky mountain metal container, Coors Brewery, Coorstek

July 2013 to January 2015

➤ Cell bins/ Palletizer, RMMC

➤ Coaters operator- Cleaning, checking for high ME using infinity for quality control checks, RMMC

United States navy Deck seaman, Aviation structural mechanic

July 2007 to July 2011

➤ Watch standing

➤ Maintaining the ship for battle readiness

➤ Underway replenishment

➤ Operating the helm of the ship

➤ Maintaining and repair of planes such as E2C2, F-16 superhornets, Prowlers, H-60 helicopters for flight operations for troops on ground.

➤ Program manager

➤ Tool control process leader

➤ Safety guarding production process

➤ 5 S implementation

EDUCATION

➤ Arvada high school 4 yrs diploma

➤ Warren Technical school 2yrs Precision Machinig Certificate

➤ Red Rocks Community College 1yr Construction Management
