## SUMMARY

To provide an array of duties as a certified Welder to include quality MIG, TIG, ARC and Robotic Welding in a timely manner to meet company deadlines. Welding on various materials to include aluminum, stainless steel, carbon steel, mild steel and omally steel with accuracy to ensure product pass quality inspection.

## SKILLS

- MIG welding of Carbon Steel, Aluminum, Stainless Steel, Galvanize
- TIG welding of Carbon Steel, Aluminum, Stainless Steel, Galvanize, Brass, Copper
- ARC welding of Carbon Steel and Cast Nine

## EXPERIENCE

### **Welder**

McNeilus – Dodge Center, World Wide Labor - May 2017 – September 2017

- MIG / TIG / ARC Welding

### **Welder**

McNeilus – Dodge Center, MN - September 2015 – March 2017

- MIG Welding

### **Welder**

Trillium – Agco - Jackson, MN - August 2014 – August 2015

- MIG Welding

### **Welder**

Agco – Jackson, MN - January 2013 – July 2014

- MIG Welding

### **Welder**

Trillium – Roger, MN - November 2011 – February 2013

- MIG Welding

### **Welder**

Worldwide - August 2011 – November 2011

- MIG Welding

## **Welder**

Komatsu - October 2007 – October 2009

- MIG Welding

## **Welder**

RBR Fabrication Inc – Rockton, IL - June 1998 – September 2007

- TIG / MIG / ARC Welding
- Welded Metal parts or components together using gas or arc welding equipment
  - Repaired broken or cracked parts, filled holes and increased size of metal parts using welding equipment
  - Welded in flat, horizontal, vertical or overhead positions
  - Set-up and operated acetylene or electric arc welding equipment to heat and shape metals and layouts
  - Cleaned or degreased parts, using wire brush, portable grinder or chemical bath
  - Chipped or grinded off excess weld, slag, or spatter using hand scraper, power chipper, portable grinder or arc-cutting equipment
  - Reviewed layouts, blueprints, or work orders in preparation for welding or cutting metal components
  - Repaired equipment requiring the use of lathe, drill press, milling and threading machines and other related machine tools
  - Experience with oxy-acetylene cutting welding processes in a variety of positions
  - Performed ARC welding which consisted of shielding metal, gas metal, gas tungsten, flux cored, submerged, and plasma
  - Positioned work pieces together and clamps together or assemble in jigs or fixtures
  - Welded metal parts, pipelines, machinery, equipment and other metal items
  - Inspected finished work piece for conformance and specifications
  - Ordered supplies, completed forms and maintained records of completed jobs

## **Welder**

OM Manufacturing Inc. – Beloit, WI - June 1997 – June 1998

- Fabrication set-up
- MIG / TIG / ARC Welding
- Sharpened and tempered tools
- Inspected finished work piece for conformance and specifications
- Computer Academic
- Use of MS Word, MS PowerPoint, MS Excel
- Experience with CAD

## EDUCATION

High School Diploma – Carver High School
