Subject: Augustine

Tonight during our second break, we think Augustine sprayed the belt that runs inside of the metal detector on MV1. It would be around 9:10-9:20 p.m. and hopefully you could see it on camera. He has done this many times before and been asked to stop, including the time he said I was harassing him. I was notified of this tonight by the operator because the belt was slipping and we couldn't run the line. When I asked Augustine, he denied doing it but the operator and QA have seen him do it several times since I told him to stop.

Soon after this, the scale guy at the end of MV1 asked Augustine to fill up the bottle of Multi Quat and he refused, saying he gets into too much trouble in that area. The operator had to stop what he was doing and go fill it up.

Please look into this and get back to us.

Thank you,

Anthony Dahlke

Lying has been a consistent issue with Augustine in the past so can it be added to his file in case it happens again or he accuses me again of harassing him?

Thanks for the quick response.

Peter

I talked to him and he said he did but forgot. I will be coming in early for now on to keep an eye out for these things

Thanks
Darryl
