## WORK EXPERIENCE

### **Processing Technician**

CSL Plasma - Bloomington, MN - August 2015 to September 2015

#### Responsibilities

My job as a process technician was to help process the plasma from any of the clients that come in. And make sure all of the plasma was healthy by storing them in the freezer before the delivery trucks can come pick them up.

### **Care Assistant**

Coventry Senior Living - Mahtomedi, MN - September 2013 to September 2015

#### Responsibilities

My job as a care assistant was to help provide care for residents with dementia and Alzheimer's disease. I would help them with their daily ADLs such as dressing, eating, and toileting. I would also have to take vital signs. Help the residents up if they had falls as well as help provide after-life care for residents who were on the verge of passing away.

#### Accomplishments

The impacts that I've had on this job is that I learned how to help provide the proper care to people who really need it.

## EDUCATION

### **high school diploma in general**

Highland Park High School - Saint Paul, MN  
2009 to 2011

### **N/A**

Normandale Community College

## SKILLS

I know how to take vital signs, you work a cash register. I have great customer service experience, people friendly, and willing to work. Kind of attitude (2 years), I know how to take vital signs, you work a cash register. I have great customer service experience, people friendly, and willing to work. Kind of attitude.
