

**SEAN GRANT**

28 Maple St Apt 2. Rochester, NH 03867

(603) 686-6077

**Job Experience**

**Cobham (Advanced Electronic Solutions) Exeter, NH**

**February 2014-Present**

*Production Technician(February 2014-March 2016)*

- Masked aerospace and rotary joint parts to prepare for panting.
- Unmasked and cleaned painted parts.
- Made U.I.D labels and scanned them for certification.
- Created stencils and using an airbrush and silkscreen, marked parts according to prints and drawings. Also applied labels as needed.
- Ran a “Bren” stencil machine to cut out specific masking templates.
- Was assigned to work primarily on the intricate rotary joint products.

*Manual Precision Machinist(March 2016-Present)*

- Was offered a job as a manual machinist to work in the “rotary joint model shop”.
- Trained to run manual lathes and milling machines with some Accurite and Prototrak knowledge.
- Created fixtures and machined parts sometimes to within +- .0001 tolerances.
- Took a intro to precision machining class and received a certificate from Great Bay Community College.
- Was assigned to the rotary joint overhaul and repair department to learn how to disassemble, evaluate, and repair worn out parts as they come in.
