Work Experience

Machine operator 2

ITG Burlington - Burlington, NC
May 2018 to Present

Inspection of cloth to make sure there is no defect or holes. Run as many yards in a work shift.

Quality control

Gildan - Mebane, NC
August 2017 to May 2018

Inspect socks for strings, holes, discoloration. Write down when each person starts on different work. Fix defects for the other workers. Had to keep an inventory of the defective socks per order.

Core assembly/QC

AKG of America - Mebane, NC
May 2015 to May 2016

Read blueprints to see how each core is suppose to be built. Got all materials for each set of work instructions. Then build as many within the work shift correctly as possible

Education

Some college
