**OBJECTIVE** | A challenging position that provides me the opportunity to use my prior work experience and project management focused skills in a demanding and fast- paced environment.

## **SKILLS & ABILITIES**

- Has worked with Microsoft office to record and help maintain proper inventory numbers for a shipping and receiving position.
- Has knowledge of the Fed Ex and UPS shipping databases.
- Worked as a cross trained employee to help with other departments.

## **EXPERIENCE** | **MATERIAL HANDLER/FORKLIFT OPERATOR TRINITY3 TECHNOLOGY SEP 18, 2017- MAY 6 2019**

While I was working at Trinity3, I operated a Raymond reach truck to move product into shelves from receiving. I then documented inventory into the computer program NAV used in within the entire company. Lastly also worked with other departments to facilitate the needs of an ever-growing technology company.

## **PACKAGE HANDLER FED EX**

DEC 6 2017- JAN 25 2017

During my brief time at Fed Ex during the holiday busy season I was a part of an overnight crew that filled and sorted packages into delivery trucks for the morning routes. This was a seasonal position that was discontinued due to the lack of work.

## **SHIPING AND RECIVING CHANGER SERVICES LLC.**

JUNE 8 2015- JAN 25 2017

While at Changer I was a part of a team that did the daily unloading and processing of totes and vending machine equipment. I would take the totes and organize them by the company which they came from. Then we processed the received items into our computer system.

## **LINE LEAD M.D.I**

SEP 2014 - MAY 2015

As a line lead for MDI I oversaw a production line that was made up of a diversified group of employees. This allowed me to grow my leadership skills and learn valuable on the job skills for my future employment.
