## Summary of Qualifications

Computer Repair, Anoka, MN 2010 - Present. Started as a hobby, as of now it's my job.

Inspection Lead July 7, 2010 -January 27, 2015  
Wal-Tek, Inc - My experience in the inspection/shipping department was with an  
Investment casting company.

Responsible for 3-7 people in my department maintaining the flow of outgoing processes/shipments and assuring they are signed off and completed based on the order of operations on the process sheet and the customers specifications.

1)I was given the Lead position in 3 short months due to my attention to detail, accuracy and general willingness to work hard/smart and get the jobs out of the door on time and to the customer's specifications.

2)I had a big part in bringing the scrap percentage down below 9% industry standard for the first time since I had been an employee.

3)I had brought the customer return percentage down below 3% industry standard.

4)I also came up with a parts counting system that is now utilized by the department. "Accurate counts were always an issue prior to my employment"

5)We exceeded the shipping goals every month, that I had been in the position.

6)I was always above our hourly standard.

7)I started learning how to read prints on my own and check the parts through the use of different gauges, calipers and the optical comparator. To be more self-sufficient and give QA more time to take care of other issues I really took the bull by the horns. I was given a letter of recommendation from the most

knowledgeable member of Quality Assurance.

I was also the main forklift operator for the shipping bay.

Other positions of employment:

Drywall Hanger/Taper/Sander 1997-2016 for different Sub-contractors

Troy Gillespie, Andover, MN

Donald Humphries, Elk River, MN

Chris DeRosier, Anoka, MN

Joe Borgan, Brooklyn Park, MN

Ralph's Gun & Pawn HYW 10 Anoka, MN 55303

2007-2009

Duties included but were not limited to:

1) Running the E-bay store

2) Shipping

3) Inventory

4) Internet research

5) APS reports
