Hobbies & Interests

And when I find myself with any amount of free time for myself...

I am then allowed to loosen up and let my mind explore. By simply releasing my thoughts and emotions with my paper & pen. I mostly write poetry in the modern/urban style I have built thru-out the years. And poetry slam is where I am the most in my zone. But I read and listen to poetry in many different styles and cultural backgrounds. From modern new/age to Shakespeare & Nerudo. Poetry is my favorite song. Because without the lyrics it's all just a bunch of noise!
