OBJECTIVE:

The rapidly changing welding industry has seen innovative developments in the last decade. I became interested in welding while in High School and looking at future trends that are considered evolving, while also contributing to the success of many key industries, as well as artisan. I am looking for a position as a welder/fitter, that will allow me to develop skills in multiple sectors of the industry, face new challenges and get a broad base of experience.

AREAS OF EXPERTISE:

- *Reading layouts/ blueprints, gathering and preparing materials, assembling final product to quality standards
- *Advanced math, metallurgy, physics and mechanical drawing
- *Taking measurements, calculating dimensions and advancing with plans for layouts
- *Knowledge of the use of specialized welding machines and equipment
- *Material safety awareness
- *Project management / Organizational skills
- *Detail oriented
- *Excellent communication and work ethic

PROFESSIONAL BACKGROUND:

Harrisons for Industrial Arts – Senior Fabricator
Oct.2021 to Oct. 2022

Reading layouts/blueprints, gathering materials, prepping materials, assembling the final product, welding said product, and finishing welds to a quality standard.
Photography of completed projects available.

EDUCATION:

Associate Degree in Applied Science (AS) – Fabrication Welding December 12th 2022

CERTIFICATIONS:

Educational Certified Welder GTAW 1f/1G-4f/4G (may 2022) WPS:B2.1-1-002-90 (R2006)
