

February 2014

On February 17th, 2014 a level three predatory offender will be re-released back into Blaine. He will be returning to the home of his previous release so he is not a “new” resident.

This person has been a registered predatory offender for some time. When he violated stipulations of his probation in 2009, he was sent back to prison. This person has served his entire sentence and will not be on any kind of supervised release (probation). Neither the Minnesota Department of Corrections nor the Blaine Police Department can dictate where an offender lives. This person has chosen to live in Blaine because of a family connection.

If you have further questions, please contact Kim Kiley, Crime Prevention Specialist at kkiley@ci.blaine.mn.us or at 763-785-6186.

The **Blaine Police Department** is releasing this information pursuant to Minnesota Statutes 244.052. This statute authorizes law enforcement agencies to inform the public of a sexual or predatory offender's release from prison or a secure treatment facility when the **Blaine Police Department** believes that the release of information will enhance public safety and protection.

The individual who appears on this notification has been convicted of Criminal Sexual Conduct or another offense that requires registration with law enforcement pursuant to Minnesota Statutes 243.166 or 243.167.

This offender is **not wanted by the police** at this time and **has served the sentence** imposed on him/her by the court. This notification is not intended to increase fear in the community. Law enforcement believes that an informed public is a safer public.

The **Blaine Police Department** may not direct where the offender does or does not reside, nor can this agency direct where he/she works or goes to school. The risk level of this offender has been determined largely on his/her potential to re-offend based on his/her previous behavior.

Convicted sexual and predatory offenders have always been released to live in our communities. It was not until the passage of the Registration Act that law enforcement had an ability track the movement of these offenders after their initial release. With the passage of the Community Notification Act law enforcement may now share information about many of these offenders with the public. Abuse of this information to threaten, harass or intimidate a registered offender is unacceptable and such acts could be charged as a crime. Such abuses could potentially end the ability of law enforcement to provide these notifications. If community notification ends the only person who wins is the offender. Many of these offenders derive their power from the opportunity that secrecy provides.
