OBJECTIVE: To secure a position in Quality Control Inspection or Production.

QUALIFICATIONS

Excellent training and experience in all phases of quality control inspection. Work hard and produce excellent results. Work well with engineers, production supervisors, production workers, and vendors.

Broad experience with many measuring devices, including micrometers, calipers and scales, air gauging equipment, Rockwell hardness testing, XYZ coordinate measuring machines (CMM), optical comparators, roughness measurement equipment, and height gauges. Experienced in surface plate inspection.

EDUCATION

Graduated – Warsaw High School, Warsaw, Indiana (1982)

TRAINING

Geometric Tolerancing, Blueprint, SPC, CMM, Virtual Demis, Calibration (GageTrak), Forklift, SAP System, Minitab, Excel, Green Belt, Lotus Notes

EMPLOYMENT

Tenneco, Elkhart Indiana 4/08 - Present

QUALITY TECHINCIAN

Responsible for: PPAP's, CMM Programs, Receiving Inspection, Dock Audits, Internal Audits, Calibration, Gage R&R's, Capability Studies, Annual layouts

Vibration Control Technologies, Ligonier Indiana 8/05-10/07

QUALITY ENGINEERING TECHINCIAN - Responsible for all first article approval. Using blueprints, calipers, micrometers along with XYZ measuring machines (CMM) and optical comparators. Assisting Engineering in CAR's, process control, PPAP's . Along with doing calibrations and annual layouts.

Kilgore

Manufacturing, Columbia City Indiana 2/05-8/05

QUALITY CONTROL INSPECTOR - Inspected incoming vendor supplied material and small precision parts. Used hand measuring devices (caliper,

micrometers)

Paragon Medical, Inc., Pierceton Indiana 11/01-1/05

QUALITY CONTROL INSPECTOR - Responsible for all first article and final inspection. Using blueprints, calculate dimensions to check and approve layouts. Verify proper sequencing of production plans. Receive and log incoming products. When parts do not meet customer's specifications, work closely with engineers to discover if the fault was in the original design or in the process. With discovery of fault, work with engineers to correct it. Through improved processes reduced rejects by customers by over 20%.

Biomet, Warsaw Indiana 3/98-5/01

QUALITY CONTROL INSPECTOR - Inspected incoming vendor supplied material and small precision parts. Used hand measuring devices (caliper, micrometers) along with XYZ measuring machines (CMM) and optical comparators. Inspected for conformance to geometric tolerances on first and last article product.

Medtronic, Warsaw Indiana 7/97-3/98 (Temporary)

QUALITY CONTROL INSPECTOR - Inspected incoming vendor supplied material and small precision parts. Used hand measuring devices (caliper, micrometers) along with XYZ measuring machines (CMM) and optical comparators.
