WEB DEVELOPMENT PROJECTS

[Fun Thoughts Clothing Company](#) | Small business website serving as digital storefront. Built using React, React Redux, React Router, JavaScript, SASS, and Bootstrap.

[Captured Creations Photography](#) | Website for local photographer revamping existing website and serving as a business portfolio for prospective clients. Built using SASS, Bootstrap, and HTML5.

[Web Dev Wiki](#) | User-friendly application built with well-documented and clean code to serve as a quick reference guide for web developers. Built using React Native, JavaScript, React Redux, and Expo.

EDUCATION

Full Stack Web Development Boot Camp - Nucamp

November 2020 – May 2021

Project-based learning with an emphasis on the MERN stack

PROFESSIONAL EXPERIENCE

Warehouse Associate

September 2018 – November 2020

Amazon | Thornton, CO

Inspect 100+ outgoing shipments daily to verify accuracy and prevent errors. Record and monitor inventory levels and complete audits to uncover and address shipment inaccuracies.

- Doubled packing rate from 175 units per hour (UPH) to 300+ UPH in three months by optimizing packaging process, exceeding company quota of 200-225 UPH
- Promoted from Packer to Problem Solve role in 13 months, fixing inaccurate orders and coordinating between the Amazon Fulfillment Engine department and three other departments to ensure all shipments went out on time

Swing Manager, Floor Supervisor, Crew Member

June 2015 – April 2018

McDonald's | Thornton, CO

Set and enforced performance and service standards to keep consistent, high-quality environment devoted to customer satisfaction. Managed and trained ~30 employees.

- Maintained high standards of food quality by reviewing shipments, overseeing food preparation, and monitoring safety
- Evaluated supplies and product inventory to check for quality and quantity issues and returned unacceptable materials to vendors
