Phone: (248) 320-4664

EDUCATION

Oberlin College
Bachelors of Arts
Major: Economics

Oberlin, Ohio
Graduation: 2006

WORK EXPERIENCE

Research Associate /Office Manager

Washington, DC

Consultants in Epidemiology & Occupational Health, LLC

2010-2013

Provided expert testimony & reports for litigation in mass tort and Supreme Court cases. Meta-analysis and systematic review of medical literature with a focus on scientific admissibility (Daubert decision). Consultants to the Mensing V. Wyeth Supreme Court decision on the Federal preemption of generic pharmaceutical manufactures. Non-funded research and public health advocacy involving EPA's draft regulation of Inorganic Arsenic in drinking water, successfully demonstrating a non-linear threshold/dose response of Arsenic in drinking water and bladder/lung cancers. Effectively demonstrating a zero net reduction in cancers from reducing the regulations for 10ppb to 2 ppb.

Global Center for Pharmacoteratology

Lead several research teams of Johns Hopkins post-grad Preventative Medicine Residents in developing and implementing epidemiological research methods. Focus on human Teratogens and neonatal health as well as broader public health issues. Granted the first non-academic research grant. \$125,000 from ARIES (Application research initiative for environmental sciences) publication #10

Research Assistant

2009-2010

Developed Research skills and methodologies for systematic review and meta-analysis of peer-reviewed medical literature; Application of epidemiological statistical analysis to develop large cleaned datasets. Responsible for obtaining raw data from publically available sources and FOIA requests, inspecting, cleaning and formatting and summarizing data, Advanced Excel, STATA

Property Management

Washington, DC

Tunlaw Real Estate holdings

2010-2013

Managed Rental Real Estate portfolio in excess of \$3.5 Million, personally handled all aspects of management of several multi-unit properties including staging, showings and completion of long-term contracts. Successfully doubled gross rental revenue over a three-year period. Additional responsibilities included Project management and design of over \$500,000 in renovations and capital improvements. [My most recent work](#)

Business Manager

Phoenix, AZ

Ridenow Powersports Management Group

2008

Ensured compliance with lending policies, practices, and underwriting criteria. In addition, I generated additional revenue through up selling financial/insurance product.

Project Manager

Cincinnati, OH

Engineering Methods Inc.

2007

As the Project Manager I was responsible for structuring, staffing, training and building the division from the ground up. In addition, I developed a complex prospecting mechanism for investment real estate. I also served as personal business advisor to the president & CEO of the company.

VOLUNTEER WORK

Denver Habitat for Humanity: helping to build home for those in need.
