Professional Profile- Employment History

Savage Services Power Plant Solutions Group

2601 S. Platte River Drive. Denver, CO. 80223

Operations Lead: Bryan Fay #720-229-8377

- Used heavy machinery to push coal into a feeder that was connected to a variety of conveyors which fed the plant. Used conveyors, tripper cars and a number of switches and control panels to fill bunkers in the plant twice a day.
- Responsible for the unloading of all coal trains at the train bay. Used a complex computerized system to auto dump each car and stack the coal in an efficient manner.
- Responsible for the up keep of all heavy machinery, vehicles, conveyors, gearboxes, hydraulic pumps, bearings, motors, stackers, shops and property.
- Also in charge of the daily and monthly safety-communications meetings and the training of all new employees.
- Employed from April 3, 2011 to December 31, 2013 Lay-off Plant Retired

Savage Services Big Lift Operations

6996 W. Titan Road Littleton, CO. 80125

Operations Manager: Ed Bouserman #303-579-8425

- Used a liquid nitrogen system to pressurize rail cars to force the product through a meter and into a storage tank or a truck trailer. Used a variety of hoses, air lines, custom valves, pumps, gages and scales to complete each order. Products transferred were mostly HAZMAT such as crude oils, ferric chloride, used oils, fly ash, fuel additive and gas-diesel.
- Responsible for all incoming and outgoing rail cars and truck trailers. Responsible for all the paper work for each order which consists of pre and post trip inspections and scaling receipts.
- Also in charge of the security of the yard each track line de-rail systems and the safety of every one working there.
- Employed from July 23, 2006 to transfer to the power plant April 3, 2011

Dawn Food Products

4500 Lipan St, Denver, CO. 80231

Operations manager: Kathy Renquist #303-761-9689

- Worked with a crew to meet and exceed a daily schedule on a fast paced production line in a large bakery- warehouse. Used a variety of packers, scales, mixers and computer systems to complete each formula ordered. Used fast jacks and standups to keep supplies stocked up for orders and for shift change.
- Responsible for the cleanliness of our area and the safety of the people around us.
- Employed from August 2002 to May 2006
