This morning Myself, Brian Pohl, Tammy Best had a meeting with James Marrow. this morning there was rework being done and I had a few of the guys punch in early to help, upon entering the production floor and helping James he became very rude, disrespectful, and told Ibrahim that he was doing it by himself, he wasn't doing it right and he didn't have time to teach him how to box properly. Matt from maintenance was walking by and heard what happened and brought it to Brian's attention. Brian pulled him off the line, spoke to me.

I talked with James and he told me that when I leave (which is the 19th of March), that he was leaving, and giving his two week notice. I told his lead that I wanted someone else to start training for operating the dimension machine, he then had Yassin move in that position. After my lunch, Brian(lead), told me that James was talking to Rick Ostendorf, which Rick told Brian what was said. I then had Rick write down the conversation today 3/9/2016
