To Whom it May Concern:

I am happy to provide a recommendation for Mitch Welch.

I had the pleasure of working with Mitch at Long's Peak Energy Conservation, a division of Boulder County Housing and Human Services. At LPEC, Mitch was responsible for leading a weatherization crew of two people to provide insulation and health/safety measures in low-income households. Mitch was always willing to do whatever was needed to get a job done and provide the highest level of customer service. He would often do the work no one else wanted to do. Mitch's regular job duties included supervising two other installers, inventory, client interactions, client file documentation. This often required flexibility, delegation, and a high level of technical skill. Mitch consistently scored as a solid performer or above on yearly performance evaluations. Mitch is also very personable and got along very well with all of his coworkers.

Mitch deserves consideration as a potential employee, and I recommend him without hesitation. Feel free to contact me at the information below.

Sincerely,

Aaron Martinez
Production Coordinator,
Long's Peak Energy Conservation
